1. Institutional arrangements and stewardship

1.1 Are the purposes of the Act still appropriate for New Zealand's Anti-Money Laundering and Countering Financing of Terrorism (AML/CFT) regime?

Yes

If you answered 'no', what should be changed?:

If you think there are other purposes that should be added, please give details below.:

1.2 Should a purpose of the Act be that it seeks to actively prevent money laundering and terrorism financing, rather than simply deterring or detecting it?

No

Please comment on your answer.:

The AML burden is far too much on small business's already. It is not our responsibility to be an unpaid section of the police.

1.3 If you answered 'yes' to Question 1.2, do you have any suggestions how this purpose should be reflected in the Act, including whether there need to be any additional or updated obligations for businesses?

Please share your comments below.:

1.4 Should a purpose of the Act be that it also seeks to counter the financing of proliferation of weapons of mass destruction?

No

Please comment on your answer.:

The AML burden is far too much on small business's already. It is not our responsibility to be an unpaid section of the police.

1.5 If you answered 'yes' to Question 1.4, should the purpose be limited to proliferation financing risks emanating from Iran and the Democratic People's Republic of Korea?

Unsure

Please give reasons for your answer.:

No

Please comment on your answer.:

The AML burden is far too much on small business's already. It is not our responsibility to be an unpaid section of the police.

1.6 Should the Act support the implementation terrorism and proliferation financing targeted financial sanctions, required under the Terrorism Suppression Act 2002 and United Nations Act 1946?

No

Please comment on your answer.:

The AML burden is far too much on small business's already. It is not our responsibility to be an unpaid section of the police.

1.7 What could be improved about New Zealand's framework for sharing information to manage risks?

Please share your comments below.:

1.8 Are the requirements in section 58 still appropriate?

No

Please comment on your answer.:

Within our sector (Law Firms) there are practices with very limited risk.

How could the government provide risk information to businesses so that it is more relevant and easily understood?:

1.9 What is the right balance between prescriptive regulation compared with the risk-based approach?

Please share your comments below.:

AML was forced on Business's. It felt like and it still does feel like the message to us was "You have to do AML, we are not going to tell you how to do it, and if you don't get it right we can fine you \$5m or send you to prison".

Does the Act currently achieve that balance, or is more (or less) prescription required?:

1.10 Do some obligations require the government to set minimum standards?

Yes

If you answered 'yes', please comment on how this could be done.:

Standards of ID required. A relaxation allowing expired passports or drivers licenses would be helpful.

What role should guidance play in providing further clarity?:

1.11 Could more be done to ensure that businesses' obligations are in proportion to the risks they are exposed to?

Yes

If you answered 'yes', please give reasons for your answer.:

Far to onerous for the perceived risk.

1.12 Does the Act appropriately reflect the size and capacity of the businesses within the AML/CFT regime?

No

Please give reasons for your answer.:

As a small business (law firm) we have had to employ a consultant, pay for auditors, and have our staff spend considerable time for each client to comply with AML.

In my 25 years of practice I have never had any clients or aware of any clients of our firm who posed any threat or looked like they were money laundering.

We have estimated that the annual costs of AML in the vicinity of \$100k pa which we have had to pass onto our clients. This cost is of no benefit to the clients or our business and only adds to extra time, cost and stress to a transaction.

We feel like we have been forced to be "unpaid spy's" for the government.

1.13 Could more be done to ensure that businesses' obligations are in proportion to the risks they are exposed to and the size of the business?

Yes

If you answered 'yes', please share your suggestions::

Perhaps a study to understand the costs of complying with money laundering in NZ should be done. Is it really worth it to suck that much money out of our business's when we don't see money laundering as a risk.

1.14 Are exemptions still required for the regime to operate effectively?

If not, how can we ensure AML/CFT obligations are appropriate for low-risk businesses or activities?:

Unsure

1.15 Is the Minister of Justice the appropriate decision maker for exemptions under section 157?

Unsure

If you answered 'no', should it be an operational decision maker such as the Secretary of Justice? Please comment below.:

1.16 Are the factors set out in section 157(3) appropriate?

Unsure

If you answered 'no', please give reasons for your answer::

1.17 Should it be specified that exemptions can only be granted in instances of proven low risk?

Unsure

Please give reasons for your answer.:

Should this be the risk of the exemption, or the risk of the business?:

1.18 Should the Act specify what applicants for exemptions under section 157 should provide?

Unsure

Please give reasons for your answer.:

Should there be a simplified process when applying to renew an existing exemption?:

1.19 Should there be other avenues beyond judicial review for applicants if the Minister decides not to grant an exemption?

Unsure

If you answered 'yes', what could these avenues look like?:

1.20 Are there any other improvements that we could make to the exemptions function?

Unsure

If you answered 'yes', please give details::

For example, should the process be more formalised with a linear documentary application process?:

1.21 Can the AML/CFT regime do more to mitigate its potential unintended consequences?

Yes

If you answered 'yes', please give details::

Trusts are not all "high risk". The AML regulations deeming all Trusts as high risk seem to have been made without discussing this with Lawyers.

Not all trusts are high risk. Most of our trust clients are Mums and Dad's who have a trust with just the family home in it. There is no trading or any other assets in the trust. In these circumstances the trust is not high risk but for the regulations. Having to ask them how they bought there house 20 years ago is ridiculous when if it was owned in there own names it wouldn't be required.

1.22 How could the regime better protect the need for people to access banking services to properly participate in society?

Please share your comments below.:

1.23 Are there any other unintended consequences of the regime?

Yes

If you answered 'yes', what are they and how could we resolve them?:

Huge Cost of compliance on business's far out weigh the benefit.

Forcing all business's to draft and prepare there own compliance programme and risk assessment and all the associated forms is a huge burden. At the end of the day all we are checking is ID and making a simple assessment as to if money laundering is happening.

1.24 Can the Act do more to enable private sector collaboration and coordination?

No

If you answered 'yes', please give details::

The DIA has a very much them and us approach. We don't reach out to them because in our industry (law firms) we have heard that as soon as you get in touch with them they send in the investigators and put the business under close scrutiny and threaten enforcement action.

1.25 What do you see as the ideal future for public and private sector cooperation?

Please share your comments below.:

Let the government and the police do there jobs and leave small business's alone. We shouldn't be unpaid spys.

Are there any barriers that prevent that future from being realised and if so, what are they?:

1.26 Should there be greater sharing of information from agencies to the private sector?

Unsure

If you answered 'yes', would this enhance the operation of the regime?:

1.27 Should the Act require have a mechanism to enable feedback about the operation and performance of the Act on an ongoing basis?

Unsure

If you answered 'yes', what is the mechanism and how could it work?:

1.28 Should the New Zealand Police Financial Intelligence Unit (FIU) be able to request information from businesses which are not reporting entities in certain circumstances (e.g. requesting information from travel agents or airlines relevant to analysing terrorism financing)?

No

Please give reasons for your answer.:

1.29 If the FIU had this power, under what circumstances should it be able to be used and should there be any constraints on using the power?

Please share your comments below.:

Get a warrant like any other police investigation

1.30 Should the FIU be able to request information from businesses on an ongoing basis?

No

Please explain your answer:

Again we shouldn't be unpaid spys

1.31 If the FIU had this power, what constraints are necessary to ensure that privacy and human rights are adequately protected?

What constraints are needed?:

1.32 Should the Act provide the FIU with a power to freeze, on a time limited basis, funds or transactions in order to prevent harm and victimisation?

No

If you answered 'yes', how could the power work and operate? In what circumstances could the power be used, and how could we ensure it is a proportionate and reasonable power? Please share your comments below.:

1.33 How can we avoid potentially tipping off suspected criminals when the power is used?

Please share your comments below.:

1.34 Should supervision of implementation of Targeted Financial Sanctions (TFS) fall within the scope of the AML/CFT regime?

No

Please give reasons for your answer.:

1.35 Which agency or agencies should be empowered to supervise, monitor, and enforce compliance with obligations to implement TFS?

Please describe below and give reasons for your answer.:

1.36 Are the secondary legislation making powers in the Act appropriate, or are there other aspects of the regime that could benefit from having regulation making powers created?

Please share your comments below.:

1.37 How could we better use secondary legislation making powers to ensure the regime is agile and responsive?

Please share your comments below.:

1.38 Are the three Ministers responsible for issuing Codes of Practice the appropriate decision makers, or should it be an operational decision maker such as the chief executives of the AML/CFT supervisors? Why or why not?

Please share your comments below and give reasons for your answer.:

1.39 Should the New Zealand Police also be able to issue Codes of Practice for some types of FIU issued guidance?

No

If you answered yes, what should the process be?:

They will only focus on what they want business's to provide but won't consider the impact and cost on business's to do this.

1.40 Are Codes of Practice a useful tool for businesses?

No

If you answered 'yes', are there any additional topics that Codes of Practice should focus on? What enhancements could be made to Codes of Practice? Please share your comments below.:

1.41 Does the requirement for businesses to demonstrate they are complying through some equally effective means impact the ability for businesses to opt out of a Code of Practice?

Yes

If you answered 'yes', please give reasons for your answer.:

Time and cost to come up with these equally effective means is a burden for business's.

1.42 What status should be applied to explanatory notes to Codes of Practice? Are these a reasonable and useful tool?

Please share your comments below.:

1.43 Should operational decision makers within agencies be responsible for making or amending the format of reports and forms required by the Act?

Unsure

Please give reasons for your answer.:

1.44 If you answered 'yes' to the previous question (question 1.43), which operational decision makers would be appropriate, and what could be the process for making the decision? For example, should the decision maker be required to consult with affected parties, and could the formats be modified for specific sectoral needs?

Please share your comments below.:

1.45 Would AML/CFT Rules (or similar) that prescribed how businesses should comply with obligations be a useful tool for business?

No

Please give reasons for your answer.:

One size does not fit all

1.46 If we allowed for AML/CFT Rules to be issued, what would they be used for, and who should be responsible for issuing them?

Please share your comments below.:

1.47 Would you support regulations being issued for a tightly constrained direct data access arrangement which enables specific government agencies to query intelligence the FIU holds?

No

Please give reasons for your answer.:

As a lawyer providing information to FIU goes against our fundamental obligation of client confidentiality.

1.48 Are there any other privacy concerns that you think should be mitigated?

Yes

Please share your comments below.:

Forcing Lawyers to breach their obligation of client confidentiality needs to be stopped.

1.49 What, if any, potential impacts do you identify for businesses if information they share is then shared with other agencies? Could there be potential negative repercussions notwithstanding the protections within section 44?

Please share your comments below.:

Forcing Lawyers to breach their obligation of client confidentiality needs to be stopped. This puts us in an incredibly difficult position and one that undermines our industry. Client distrust is an outcome.

1.50 Would you support the development of data-matching arrangements with FIU and other agencies to combat other financial offending, including trade-based money laundering and illicit trade?

No

Please give reasons for your answer.:

1.51 What concerns, privacy or otherwise, would we need to navigate and mitigate if we developed data-matching arrangements? For example, would allowing data-matching impact the likelihood of businesses being willing to file Suspicious Activity Reports (SARs)?

Please share your comments below.:

1.52 Should there be an AML/CFT-specific registration regime which complies with international requirements?

No

If you answered 'yes', how could it operate, and which agency or agencies would be responsible for its operation? Please share your comments below.:

Yet another compliance burden and cost on Business's. Not needed.

1.53 If such a regime was established, what is the best way for it to navigate existing registration and licensing requirements?

Please share your comments below.:

1.54 Are there alternative options for how we can ensure proper visibility of which businesses require supervision and that all businesses are subject to appropriate fit-and-proper checks?

No

Please give reasons for your answer.:

1.55 Should there also be an AML/CFT licensing regime in addition to a registration regime?

No

Please give reasons for your answer.:

Yet another compliance burden and cost on Business's. Not needed.

1.56 If we established an AML/CFT licensing regime, how should it operate? How could we ensure the costs involved are not disproportionate?

Please share your comments below.:

Don't do it.

1.57 Should a regime only apply to sectors which have been identified as being highly vulnerable to money laundering and terrorism financing, but are not already required to be licensed?

No

Please give reasons for your answer.:

Yet another compliance burden and cost on Business's. Not needed.

1.58 If such a regime was established, what is the best way for it to navigate existing licensing requirements?

Please share your comments below.:

Don't do it.

1.59 Would requiring risky businesses to be licensed impact the willingness of other businesses to have them as customers? Can you think of any potential negative flow-on effects?

Please share your comments below.:

Yes again compliance costs

1.60 Would you support a levy being introduced for the AML/CFT regime to pay for the operating costs of an AML/CFT registration and/or licensing regime?

Please give reasons for your answer.:

Absolutely Not. The costs on business's for this unwanted compliance burden is already far too much already. The Government wants this they can pay for it.

No

1.61 If we developed a levy, who do you think should pay the levy (some or all reporting entities)?

Please share your comments below.:

The Government wants this they can pay for it.

1.62 Should all reporting entities pay the same amount, or should the amount be calculated based on, for example, the size of the business, their risk profile, how many reports they make, or some other factor?

Please share your comments below.:

The Government wants this they can pay for it.

1.63 Should the levy also cover some or all of the operating costs of the AML/CFT regime more broadly, and thereby enable the regime to be more flexible and responsive?

No

Please give reasons for your answer.:

No Levy

1.64 If the levy paid for some or all of the operating costs, how would you want to see the regime's operation improved?

Please share your comments below.:

No Levy

2. Scope of the AML/CFT Act

2.1 How should the Act determine whether an activity is captured, particularly for Designated Non-Financial Businesses and Professions (DNFBPs)?

Please share your comments below.:

Not Answered

Please give reasons for your answer.:

2.2 If 'ordinary course of business' was amended to provide greater clarity, particularly for DNFBPs, how should it be articulated?

Please share your comments below.:

2.3 Should 'ordinary' be removed?

Not Answered

If so, how could we provide some regulatory relief for businesses which provide activities infrequently? Are there unintended consequences that may result? Please share your comments below.:

2.4 Should businesses be required to apply AML/CFT measures in respect of captured activities, irrespective of whether the business is a financial institution or a DNFBP?

Not Answered

Please give reasons for your answer.:

2.5 If you answered yes to the previous question (Question 2.4), should we remove 'only to the extent' from section 6(4)?

Not Answered

Would anything else need to change, e.g. to ensure the application of the Act is not inadvertently expanded? Please share your comments below.:

2.6 Should we issue regulations to clarify that captured activities attract AML/CFT obligations irrespective of the type of reporting entity which provides those activities?

Not Answered

Please give reasons for your answer.:

2.7 Should we remove the overlap between 'managing client funds' and other financial institution activities?

Not Answered

If you answered 'yes', how could we best do this to avoid any obligations being duplicated for the same activity? Please share your comments below.:

2.8 Should we clarify what is meant by 'professional fees'?

Not Answered

If you answered 'yes', what would be an appropriate definition? Please share your comments below.:

2.9 Should the fees of a third party be included within the scope of 'professional fees'?

Yes

Please give reasons for your answer.:

2.10 Does the current definition appropriately capture those businesses which are involved with a particular activity, including the operation and management of legal persons and arrangements?

Not Answered

Please give reasons for your answer.:

How could it be improved?:

2.11 Have you faced any challenges with interpreting the activity of 'engaging in or giving instructions'?

Not Answered

If you answered 'yes', what are those challenges and how could we address them?:

2.12 Should the terminology in the definition of financial institution be better aligned with the meaning of financial service provided in section 5 of the Financial Service Providers (Registration and Dispute Resolution) Act 2008?

Not Answered

If you answered yes, how could we achieve this?:

2.13 Are there other elements of the definition of financial institution that cause uncertainty and confusion about the Act's operation?

Not Answered

If you answered 'yes', please give details.:

2.14 Should the definition of high-value dealer be amended so businesses which deal in high value articles are high-value dealers irrespective of how frequently they undertake relevant cash transactions?

Not Answered

Please give reasons for your answer.:

Can you think of any unintended consequences that might occur?:

2.15 What do you anticipate would be the compliance impact of this change?

Please share your comments below.:

2.16 Should we revoke the exclusion for pawnbrokers to ensure they can manage their money laundering and terrorism financing risks?

Not Answered

Please give reasons for your answer.:

2.17 Given there is an existing regime for pawnbrokers, what obligations should we avoid duplicating to avoid unnecessary compliance costs?

Please share your comments below.:

2.18 Should we lower the applicable threshold for high value dealers to enable better intelligence about cash transactions?

Not Answered

Please give reasons for your answer.:

2.19 If you answered 'yes' to the previous question (Question 2.18), what would be the appropriate threshold? How many additional transactions would be captured? Would you stop using or accepting cash for these transactions to avoid AML/CFT obligations?

Please share your comments below.:

2.20 Do you currently engage in any transactions involving stores of value that are not portable devices (e.g. digital stored value instruments)?

Not Answered

If you answered 'yes', what is the nature and value of those transactions?:

2.21 What risks do you see with stored value instruments that do not use portable devices?

Please share your comments below.:

2.22 Should we amend the definition of "stored value instruments" to be neutral as to the technology involved?

Not Answered

If you answered 'yes', how should we change the definition? Please share your comments below.:

2.23 Should acting as a secretary of a company, partner in a partnership, or equivalent position in other legal persons and arrangements attract AML/CFT obligations?

Not Answered

Please give reasons for your answer.:

2.24 If you are a business which provides this type of activity, what do you estimate the potential compliance costs would be for your business if it attracted AML/CFT obligations?

Please share your comments below.:

Yes

If you answered 'yes', what should those obligations be and why?:

2.28 Should non-life insurance companies become reporting entities under the Act?

No

Please give reasons for your answer.:

Not Answered

Please give reasons for your answer.:

2.30 If you are a non-life insurance business, what do you estimate would be the costs of having AML/CFT obligations (including limited obligations)?

Please share your comments below.:

2.31 Should we use regulations to ensure that all types of virtual asset service providers have AML/CFT obligations, including by declaring wallet providers which only provide safekeeping or administration are reporting entities?

Not Answered

If you answered 'yes', how should we do this?:

2.32 Would issuing regulations for this purpose change the scope of capture for virtual asset service providers which are currently captured by the AML/CFT regime?

Not Answered

If you answered 'yes', please give reasons for your answer.:

2.33 Is the Act sufficiently clear that preparing or processing invoices can be captured in certain circumstances?

Not Answered

If you answered 'no', please give reasons for your answer.:

2.34 If we clarified the activity, should we also clarify what obligations businesses should have?

Not Answered

If you answered 'yes', please give reasons for your answer.:

2.35 Should preparing accounts and tax statements attract AML/CFT obligations?

Yes

Please give reasons for your answer.:

2.36 If you answered 'yes' to the previous question (Question 2.35), what would be the appropriate obligations for businesses which provide these services?

Please share your comments below.:

2.37 Should tax-exempt non-profits and non-resident tax charities be included within the scope of the AML/CFT Act given their vulnerabilities to being misused for terrorism financing?

No

Please give reasons for your answer.:

These organisation do a lot of governments social work and there shouldn't be any more compliance costs on these. Most are run by volunteers.

2.38 If these non-profit organisations were included, what should their obligations be?

Please share your comments below.:

2.39 Are there any other regulatory or class exemptions that need to be revisited, e.g. because they no longer reflect situations of proven low risk or because there are issues with their operation?

Not Answered

If you answered 'yes', please share your suggestions.:

2.40 Should the exemption for internet auctions still apply, and are the settings correct in terms of a wholesale exclusion of all activities?

Not Answered

If you answered 'no', please give reasons for your answer.:

2.41 If it should continue to apply, should online marketplaces be within scope of the exemption?

Not Answered

Please give reasons for your answer.:

2.42 What risks do you see involving internet marketplaces or internet auctions?

Please share your comments below.:

2.43 If we were to no longer exclude online marketplaces or internet auction providers from the Act, what should the scope of their obligations be? What would be the cost and impact of that change?

Please share your comments below.:

2.44 Do you currently rely on this regulatory exemption to offer special remittance card facilities?

Not Answered

Not Answered

If you answered 'yes', please share your suggestions.:

Yes

If you answered 'yes', why do you use them, and how many do you use? What is the ownership and control structure for those companies?:

As a law firm we use corporate trustees to act as independent trustee for our clients where we are trustees of their trusts. Partners of the firm are directors and shareholders

2.50 Should we issue a new regulatory exemption to exempt legal or natural persons that act as trustee, nominee director, or nominee shareholder where there is a parent reporting entity involved that is responsible for discharging their AML/CFT obligations?

Yes

Please give reasons for your answer.:

As above - partners are directors of the trustee company. The partners are of the law form which is a reporting entity anyway

2.51 If so, what conditions should be attached to such an exemption to ensure it does not raise other money laundering or terrorism financing vulnerabilities?

Please share your comments below.:

2.52 Should we issue a new regulatory exemption to exempt Crown entities, entities acting as agents of the Crown, community trusts, and any other similar entities from AML/CFT obligations?

No

Please give reasons for your answer.:

No we are a law firm that have separate reporting obligations to the law society and weren't exempt, so why should these organisations be exempt as well.

Please share your suggestions below.:

2.54 Should we issue an exemption for all reporting entities providing low value loans, particularly where those loans are provided for social or charitable purposes?

Not Answered

Please give reasons for your answer.:

2.55 If so, what conditions should be attached to such an exemption to ensure it does not raise other money laundering or terrorism financing vulnerabilities?

Please share your comments below.:

2.56 Should the AML/CFT Act define its territorial scope?

Not Answered

Please give reasons for your answer.:

2.57 If so, how should the Act define a business or activity to be within the Act's territorial scope?

Please share your comments below.:

3. Supervision, regulation, and enforcement

3.1 Is the AML/CFT supervisory model fit for purpose or should we consider changing it?

Yes

3.1 Please indicate why? :

Should be all one agency so there is consistency

3.2 If it were to change, what supervisory model do you think would be more effective in a New Zealand context?

Single supervisor responsible for all entities

3.2 Please provide context for your choice:

3.3 Do you think the Act appropriately ensures consistency in the application of the law between the three supervisors? If not, how could inconsistencies in the application of obligations be minimised?

Not Answered

3.3 Please provide options for how inconsistencies in the application of obligations could be minimised:

3.4 Does the Act achieve the appropriate balance between ensuring consistency and allowing supervisors to be responsive to sectoral needs? If not, what mechanisms could be included in legislation to achieve a more appropriate balance?

Not Answered

If not, what mechanisms could be included to achieve balance:

3.5 Are the statutory functions and powers of the supervisors appropriate or do they need amending? If so, why?

Yes - the functions and powers are appropriate

3.5 If so, why are the statutory functions and powers of the supervisors not appropriate:

3.5 What amendments are required:

3.6 Should AML/CFT Supervisors have the power to conduct onsite inspections of REs operating from a dwelling house? If so, what controls should be implemented to protect the rights of the occupants?

Unsure

Please explain your answer:

What controls are required to protect the rights of occupants?:

3.7 What are some advantages or disadvantages of remote onsite inspections?

Please share your thoughts:

Not Answered

Please explain your answer:

What mechanisms would be required to make virtual inspections work?:

3.9 Is the process for forming a designated business group (DBG) appropriate? Are there any changes that could make the process more efficient?

Not Answered

Please explain your answer:

Are there changes that could make the process more efficient?:

3.10 Should supervisors have an explicit role in approving or rejecting formation of a DBG? Why or why not?

Not Answered

Why or why not?:

3.11 Should explicit standards for audits and auditors be introduced? If so, what should those standards be and how could they be used to ensure audits are of higher quality?

Yes

If yes, what should the standards be?:

How can you audit something so regulated if the auditors aren't regulated. They should be subject to standards and registration set down by the regulators

How could standards be used to ensure audits are of higher quality?:

3.12 Who would be responsible for enforcing the standards of auditors?

AML/CFT supervisors

If other, which agency/organisation would enforce the standards?:

Please explain your answer:

3.13 What impact would that have on cost for audits? What benefits would there be for businesses if we ensured higher quality audits?

Please share your thoughts:

What benefits would there be for businesses if we ensured higher quality audits?:

3.14 Should there be any protections for businesses which rely on audits, or liability for auditors who do not provide a satisfactory audit?

Yes

Please explain your answer:

Business's struggle to understand these complex difficult AML regulations, so if an auditor signs it off the business should be able to rely on that.

If yes, what protections would you want? What should be the nature of the liability for auditors?:

3.15 Is it appropriate to specify the role of a consultant in legislation, including what obligations they should have? If so, what are appropriate obligations for consultants?

Yes

Please explain your answer:

Business's struggle to understand these complex difficult AML regulations, so if a consultant signs it off the business should be able to rely on that.

If a consultant's rule should be specified in legislation, what are the appropriate obligations?:

3.16 Do we need to specify what standards consultants should be held to? If so, what would it look like? Would it include specific standards that must be met before providing advice?

Unsure

Please explain your answer:

If yes, what should the standards look like?:

3.17 Who would be responsible for enforcing the standard of consultants?

AML/CFT supervisor(s)

If other, please indicate which agency/organisation you see having responsibility:

Please explain your answer:

3.18 Do you currently use agents to assist with your AML/CFT compliance obligations? If so, what do you use agents for?

Yes

What do you use agents for?:

The AML regulations are far too intrusive and complex for our business to go it alone. Consultant was needed to do risk assessment, compliance programme and on going general advice. This unfortunate cost has been passed on to clients.

3.19 Do you currently take any steps to ensure that only appropriate persons are able to act as your agent? What are those steps and why do you take them?

Not Answered

If yes, what are the steps you take to ensure only appropriate persons act as your agent?:

3.20 Should there be any additional measures in place to regulate the use of agents and third parties? For example, should we set out who can be an agent and in what circumstances they can be relied upon?

Not Answered

Please explain your answer:

3.20 If yes, what other additional measures would you like to regulate the use of agents and third parties? :

3.21 Does the existing penalty framework in the AML/CFT Act allow for effective, proportionate, and dissuasive sanctions to be applied in all circumstances, including for larger entities? Why or why not?

No

Please explain your answer:

The approach from Government is a big stick threatening approach which is why there is so much loathing of AML. It is extremely threatening to a small business and its owners to be threatened with a \$5m fine or imprisonment.

AML was forced on business's and it feels like the Government has said "you now have to do AML, we are not going to tell you how to do it and if you get it wrong we will send you to prison or fine you \$5million".

3.22 Would additional enforcement interventions, such as fines for non-compliance or enabling the restriction, suspension, or removal of a license or registration enable more proportionate, effective, and responsive enforcement?

No

Please explain your answer:

The sanctions are far too extreme for small business's as it is.

3.23 Are there any other changes we could make to enhance the penalty framework in the Act?

Yes

Please provide further detail:

More carrot and less stick approach.

3.24 Should the Act allow for higher penalties at the top end of seriousness to ensure sufficiently dissuasive penalties can be imposed for large businesses? If so, what should the penalties be?

No

Please provide further information, including what the penalties could be:

The sanctions are far too extreme for small business's as it is.

3.25 Would broadening the scope of civil sanctions to include directors and senior management support compliance outcomes? Should this include other employees?

No

Please provide further detail:

The sanctions are far too extreme for small business's as it is.

3.26 If penalties could apply to senior managers and directors, what is the appropriate penalty amount?

Please share your thoughts:

None the sanctions are far too extreme for small business's as it is.

3.27 Should compliance officers also be subject to sanctions or provided protection from sanctions when acting in good faith?

Please share your thoughts:

No the sanctions are far too extreme for small business's as it is.

3.28 Should the Department of Internal Affairs (DIA) have the power to apply to liquidate a business to recover penalties and costs obtained in proceedings undertaken under the Act?

No

Please provide your comments in the box below:

The sanctions are far too extreme for small business's as it is. This would also then punish the staff.

3.29 Should we change the time limit by which prosecutions must be brought by? If so, what should we change the time limit to?

Yes

Please provide your thoughts:

If you answered yes, what should we change the time limit to?:

1 year

4. Preventive measures

4.1 What challenges do you have with complying with your customer due diligence (CDD) obligations? How could these challenges be resolved?

What challenges do you have with complying with your CDD obligations?:

Elderly clients who do not have a drivers licence, or passport. Clients in these circumstances don't have current photo ID and will not need to get them. Having to then get someone into the office to sign a declaration is time consuming and adds significant delays.

How could these challenges be resolved?:

Allowing us as law firms to take a reasonable assessment of the client and transaction involved and exempt the client from having to have up to date id. OR allow expired passports or drivers licenses to be used. Just because the ID has expired doesn't mean the person isn't the person on the ID!

4.2 Have you experienced any situations where trying to identify the customer can be challenging or not straightforward? What were those situations and why was it challenging?

Yes

If yes, what were those situations and why was it challenging?:

Extremely difficult expensive and time consuming when there are trusts. It is very difficult to know how far we have to go with trusts with multiple companies and trustees and shareholders.

4.3 Would a more prescriptive approach to the definition of a customer be helpful? For example, should we issue regulations to define who the customer is in various circumstances and when various services are provided?

Yes

Please share your thoughts:

4.4 If so, what are the situations where more prescription is required to define the customer?

What do you think?:

Define a Trust with a Lawyers hat on and consider the standard NZ family Trust. It appears you have defined fixed trusts (needing beneficiaries AML) and discretionary trusts (Beneficiaries as not needing AML). In reality fixed trusts are practically non-existent.

4.5 Do you anticipate that there would be any benefits or additional challenges from a more prescriptive approach being taken?

Please share your thoughts:

4.6 Should we amend the existing regulations to require real estate agents to conduct CDD on both the purchaser and vendor?

No

Please provide comments below :

A Purchaser is not the Agents client. That's taking it too far.

4.7 What challenges do you anticipate would occur if this was required? How might these be addressed? What do you estimate would be the costs of the change?

What challenges do you anticipate would occur if CDD was required on both parties?:

A waste of time. How could this work in an Auction situation. You have to be AML'ed to enter the room. Completely unworkable. The Purchaser is going to be AML'ed by his Lawyer, Bank and accountant, isn't that enough!

How might the challenges be addressed?:

Don't do it.

What do you estimate the costs of the change would be?:

4.8 When is the appropriate time for CDD on the vendor and purchaser to be conducted in real estate transactions?

Current timing is appropriate for both vendor and purchaser

If you have indicated other above or have more comments to make please provide them in the box below:

4.9 Are the prescribed points where CDD must be conducted clear and appropriate? If not, how could we improve them?

Yes

Please provide further detail below:

4.10 For enhanced CDD, is the trigger for unusual or complex transactions sufficiently clear?

No

Please provide further detail below:

4.11 Should CDD be required in all instances where suspicions arise?

No

Please provide your comments in the box below:

We are not unpaid spy's. Out side of the business relationship is the Police's job.

4.12 If so, what level of CDD should be required, and what should be the requirements regarding verification? Is there any information that businesses should not need to obtain or verify?

Not Answered

What should be the requirements regarding verification?:

Is there any information that businesses should not need to obtain or verify?:

4.13 How can we ensure that this obligation does not put businesses in a position where they are likely to tip off the person?

Please provide your comments in the box below:

4.14 What money laundering risks are you seeing in relation to law firm trust accounts?

Please provide your comments in the box below:

Nil - as a Law firm we do not accept cash. We are highly regulated by the Law Society.

4.15 Are there any specific AML/CFT requirements or controls that could be put in place to mitigate the risks? If so, what types of circumstances or transactions should they apply to and what should the AML/CFT requirements be?

No

Please share your thoughts:

If you answered yes, what types of circumstances or transactions should they apply to and what should the AML/CFT requirements be?:

4.16 Should this only apply to law firm trust accounts or to any DNFBP that holds funds in its trust account?

Not Answered

Please provide your comments in the box below:

4.17 What do you estimate would be the costs of any additional controls you have identified?

Please provide your comments in the box below:

4.18 Is the information that the Act requires to be obtained and verified still appropriate? If not, what should be changed?

No

Please share your thoughts:

Not all trusts should be treated equally. Allow Lawyers to determine if a trust is low risk (IE Mum and Dad Trust only owning the Family Home) as low risk. There is no need to assess the source of wealth for this trust.

4.19 Are the obligations to obtain and verify information clear?

Unsure

Please provide your comments in the box below:

4.20 Is the information that businesses should obtain and verify about their customers still appropriate?

Unsure

Please provide your comments in the box below:

4.21 Is there any other information that the Act should require businesses to obtain or verify as part of CDD to better identify and manage a customer's risks?

Please provide your comments in the box below:

No its too onerous as it is.

4.22 Should we issue regulations to require businesses to obtain and verify information about a legal person or legal arrangement's form and proof of existence, ownership and control structure, and powers that bind and regulate? Why?

No

Please provide your thoughts :

4.23 Do you already obtain some or all of this information, even though it is not explicitly required? If so, what information do you already obtain and why?

Yes

If so, what information do you already obtain and why?:

4.24 What do you estimate would be the impact on your compliance costs for your business if regulations explicitly required this information to be obtained and verified?

Please estimate the impact on your compliance costs in the box below:

4.25 Should we issue regulations to prescribe when information about a customer's source of wealth should be obtained and verified versus source of funds? If so, what should the requirements be for businesses?

No

Please provide further details below:

If so, what should the requirements be for businesses?:

4.26 Are there any instances where businesses should not be required to obtain this information? Are there any circumstances when source of funds and source of wealth should be obtained and verified?

Yes

Please provide your thoughts:

Not all trusts should be treated equally. Allow Lawyers to determine if a trust is low risk (IE Mum and Dad Trust only owning the Family Home) as low risk. There is no need to assess the source of wealth for this trust.

4.27 Would there be any additional costs resulting from prescribing further requirements for source of wealth and source of funds?

Yes

Please provide your estimate of additional costs in the box below:

4.28 Should we issue regulations to require businesses to obtain information about the beneficiary/ies of a life insurance or investment-related insurance policy and prescribe the beneficiary/ies as a relevant risk factor when determining the appropriate level of CDD to conduct? Why or why not?

No

4.28 Please provide your comments on why or why not in the box below:

4.29 If we required this approach to be taken regarding beneficiaries of life and other investment-related insurance policies, should the obligations only apply for moderate or high-risk insurance policies? Are there any other steps we could take to ensure compliance costs are proportionate to risks?

No

Please provide your comments in the box below:

Are there any other steps we could take to ensure compliance costs are proportionate to risks?:

4.30 Have you encountered issues with the definition of a beneficial owner? If so, what about the definition was unclear or problematic?

Yes

If so, what about the definition was unclear or problematic?:

4.31 How can we improve the definition in the Act as well as in guidance to address those challenges?

Please provide your thoughts:

4.32 Should we issue a regulation which states that businesses should be focusing on identifying the "ultimate" beneficial owner? If so, how could "ultimate" beneficial owner be defined?

Yes

Please provide your thoughts:

If so, how could "ultimate" beneficial owner be defined:

4.33 To what extent are you focusing beneficial ownership checks on the "ultimate" beneficial owner, even though it is not strictly required?

Always

Please provide any comments you have on "ultimate" beneficial owner checks in the box below:

4.34 Would there be any additional costs resulting from prescribing that businesses should focus on the "ultimate" beneficial owner?

Yes

Please provide your thoughts:

If yes, can you please indicate the level of costs you think apply:

4.35 Should we issue a regulation which states that for the purposes of the definition of beneficial owner, a person on whose behalf a transaction is conducted is restricted to a person with indirect ownership or control of the customer (to align with the Financial Action Task Force (FATF) standards)? Why or why not?

Unsure

Please provide your thoughts below:

4.36 Would this change make the "specified managing intermediaries" exemption or Regulation 24 of the AML/CFT (Exemption) Regulations 2011 unnecessary? If so, should the exemptions be revoked?

Unsure

Please provide your thoughts:

4.37 Would there be any additional compliance costs or other consequences for your business from this change? If so, what steps could be taken to minimise these costs or other consequences?

Yes

Please provide your thoughts:

4.38 What process do you currently follow to identify who ultimately owns or controls a legal person, and to what extent is it consistent with the process set out in the FATF standards?

NZ AML/CFT Supervisor guidance on Beneficial Ownership

4.39 Should we issue regulations or a Code of Practice which is consistent with the FATF standards for identifying the beneficial owner of a legal person?

Not Answered

Please provide any further comments you have in the box below:

4.40 Are there any aspects of the process the FATF has identified that are not appropriate for New Zealand businesses?

Not Answered

If yes, please indicate what aspects they are and why they are not appropriate for New Zealand businesses:

4.41 Would there be an impact on your compliance costs by mandating this process? If so, what would be the impact?

Yes

If so, what would be the impact?:

4.42 Should we issue regulations or a Code of Practice that allows businesses to satisfy their beneficial ownership obligations by identifying the settlor, the trustee(s), the protector and any other person exercising ultimate effective control over the trust or legal arrangement?

Issue a Code of Practice

Please provide any comments you have in the box below:

4.43 Would there be an impact on your compliance costs by mandating that this process be applied? If so, what is the impact?

Yes

Please provide further details below:

4.44 Are the standards of verification and the basis by which verification of identity must be done clear and still appropriate? If not, how could they be improved?

Yes

Please provide your thoughts:

4.45 Do you encounter any challenges with using Identity Verification Code of Practice (IVCOP)? If so, what are they, and how could they be resolved?

Yes

4.48 If so, what are they, and how could they be resolved?:

Allow the use of expired ID. Also align your ID requirements with LINZ so we have the same standards (Law Firm)

4.46 Is the approach in IVCOP clear and appropriate? If not, why?

Unsure

Please provide your comments in the box below:

4.47 Should we amend or expand the IVCOP to include other AML/CFT verification requirements, e.g. verifying name and date of birth of high-risk customers verifying legal persons or arrangements, ongoing CDD, or sharing CDD information between businesses?

Not Answered

What other verification requirements could be included?:

4.48 Are there any identity documents or other forms of identity verification that businesses should be able to use to verify a customer's identity?

Please provide your comments in the box below:

Mobility cards

Unsure

What challenges have you faced? :

How could those challenges be addressed?:

4.50 What challenges have you faced with verification of address information? What have been the impacts of those challenges?

What challenges have you faced with verification of address information?:

Some people live in caravans with no permanent address.

4.53 What have been the impacts of those challenges?:

4.51 In your view, when should address information be verified, and how should that verification occur?

When should address information be verified?:

I still don't understand the point of address verification? How does having an address stop you from being a money launderer?

How should verification occur?:

4.52 How could we address challenges with address verification while also ensuring law enforcement outcomes are not undermined? Are there any fixes we could make in the short term?

Yes

Why? Please provide your response in the box below:

4.58 Should we remove the requirement for enhanced CDD to be conducted for all trusts or vehicles for holding personal assets? Why or why not?

Yes

Why or why not? Please elaborate:

Not all trusts should be treated equally. Allow Lawyers to determine if a trust is low risk (IE Mum and Dad Trust only owning the Family Home) as low risk. There is no need to assess the source of wealth for this trust. IF that Mum and Dad owned the home in their own name it wouldn't be high risk.

4.59 If we removed this requirement, what further guidance would need to be provided to enable businesses to appropriately identify high risks trusts and conduct enhanced CDD?

Please provide further detail below:

Allow Lawyers to have the discretion to determine if the trust is high risk or not.

4.60 Should high-risk categories of trusts which require enhanced CDD be identified in regulation or legislation? If so, what sorts of trusts would fall into this category?

Yes

Please provide further detail below:

If so, what sorts of trusts would fall into this category?:

Foreign Trust only

4.61 Are the ongoing CDD and account monitoring obligations in section 31 clear and appropriate, or are there changes we should consider making?

No

Please provide further detail below:

It extremely time consuming to have to monitor the expiry dates of ID for large organisations. The organisation doesn't change just because an ID expires.

What changes should we consider making to clarify CDD and account monitoring obligations in section 31?:

Once a client is on boarded there shouldn't be a requirement to always get expired ID replaced.

4.62 As part of ongoing CDD and account monitoring, do you consider whether and when CDD was last conducted and the adequacy of the information previously obtained?

Not Answered

Please provide any further comments in the box below:

4.72 Should the Act set out what can constitute tipping off and set out a test for businesses to apply to determine whether conducting CDD or enhanced CDD may tip off a customer?

No

Why? Please provide more information below:

4.73 Once suspicion has been formed, should reporting entities have the discretion not to conduct enhanced CDD to avoid tipping off?

Yes

Please provide any further information below:

Yes
