Subject: AML review submission
Attachments: voluntary contributions submission (1).pdf

Good morning,

Please find attached my submission on the review of AML legislation particularly regarding voluntary contributions to restricted work place superannuation schemes. I have just seen that submissions closed on December 3rd but hope that my brief submission may still be considered.

Thanks for your time,

To whom it may concern,

My name is Reuben Otto and I have been a career firefighter and member of my workplace superannuation scheme, FireSuper, since 2011. In the 10 years that I have been a career firefighter FireSuper has grown to be my most significant asset other than the equity in my home.

As my wife and myself both have full time employment we are lucky to be in a position to invest some of our additional income. Because investing carries a risk we would like to invest our money into something that we know and trust. FireSuper as my workplace superannuation scheme has shown us how our money can grow over time as well as providing us confidence through regular updates and information that feel easy to understand and relatable to me as a firefighter.

It is our view as a family that being able to make voluntary contributions to my FireSuper superannuation account would greatly improve our confidence and desire to invest money for our future and retirement.

I hope that this submission will contribute towards workplace superannuation schemes, like FireSuper, being able to accept voluntary contributions from their members in the future.

Thanks for your consideration,

Reuben Otto
